

Large Diameter Hydraulic Positioning Kit

Hydraulically powered re-rounding and positioning units for supporting and restraining large diameter pipes and couplers throughout the electrofusion joining process. Available for in-line use only.

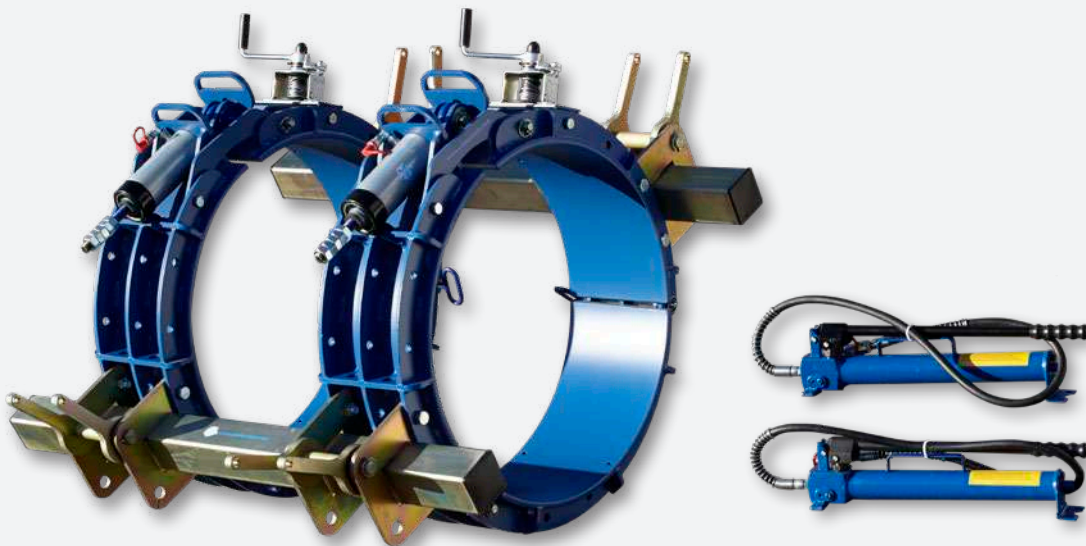

FEATURES

- Hydraulically powered
- Perfect for pipe sizes 400 - 1200mm
- Supplied with 2 separate pumps
- Fitted with easy release couplings
- Provides re-rounding capabilities
- Mild steel design with lightweight hydraulic pumps

Large Diameter Hydraulic Positioning Kit

Positioning Kits

Code	Description
01-08-200	Hydraulic Positioning Kit with 2 pumps 400 x 400mm
01-08-300	Hydraulic Positioning Kit with 2 pumps 500 x 500mm
01-08-400	Hydraulic Positioning Kit with 2 pumps 630 x 630mm
01-08-500	Hydraulic Positioning Kit with 2 pumps 710 x 710mm
01-08-600	Hydraulic Positioning Kit with 2 pumps and winches 800 x 800mm
01-08-700	Hydraulic Positioning Kit with 2 pumps and winches 900 x 900mm
01-08-800	Hydraulic Positioning Kit with 2 pumps and winches 1000 x 1000mm
01-08-900	Hydraulic Positioning Kit with 2 pumps and winches 1200 x 1200mm
